"A Concrete Romance" was the title of a special picture in two parts shown at the Crystal Tuesday night. Besides being a good picture with good acting, it advertised concrete construction of every description, including concrete roads. It was furnished by the Kosmos Cement Co., of Louisville, under the auspices of the Hickman Concrete Co., of which J. T. Stephens is the "main push."

The ladies missionary society of the Methodist church met last Friday with Mrs. C. C. Smith. Those present were Mesdames J. E. Fuqua, C. L. Randle, A. M. DeBow, J. M. Henderson, S. B. Burrus, Alice Amberg and Miss Mattie DeBow.

On account of a break-down the Str. Ferd Herold is out of commission this week and the Georgia is running in her place.

J. C. Burdick was here from Union City yesterday.

MOST AVAILABLE CANDIDATE.

Without disparagement to any of the other Democratic candidates, and prepared to support either of them who may receive the nomination, The Democrat is inclined to think the strongest and most available man the Democrat could nominate is Henry M. Bosworth. He is not identified with factions and cliques. He is clean, able, progressive, vigorous, honest; a thorough-going Democrat who has come up from the people, filling each office to which he has been elected with credit and honor, and on all occasions and in every capacity having given a good account of himself. Mr. Bosworth has no ene-

CHURCH OF CHRIST NOTES.

Great interest is now manifested in the Bible school. The adult classes are becoming more and more full of interest and the intermediate and primary classes are brimming full of interest. The Loyal men will begin on next Sunday the study of the New Testament church. This is a fine text book and a great time is ahead of the class in its study. Then there is something stirring already for the next monthly class party. Better get in now and have a part with us in this great work.

The services on next Lord's day will be of special interest to all who may attend. In the morning there will begin for the morn-

County School Notes

Rural schools will begin the new term on July 5th and August 2nd. A careful record is now kept of the grade to which each pupil belongs which will enable teachers to assign pupils to the proper classes on the first day of school. Parents are requested not to permit pupils to buy new books until they have been assigned them by the teachers. Pupils who have moved into new districts should bring their report cards from last year when they enter new school. Rural schools are all graded and from the records every teacher will know what work was done last year and what is to be done this year. This next school year we hope that every district will make a special effort to encourage the 7th and 8th grade pupils to attend the full term of the school. Examinations will be held at each school and certificates of promotion be given to all who complete the 8th grade. From the number of pupils now in this grade we ought to have at least forty graduates next term.

Examination for teachers certificates will be held June 18th and 19th.

Teachers applying for positions in rural schools should file written applications with the division boards before June 5th.

Fulton county is entitled to one appointment for free tuition in Kentucky State University. This appointment may be used for any course offered. In addition we have four appointments that can be used in the Department of Education only. A competitive examination will be held, the date of which will be announced later. All applicants must have the equivalent of a high school education as the University no longer maintains a preparatory department.

Commonwealth's Attorney Harry J. Moorman was here Tuesday in the interest of his candidacy for re-election to his present office. Mr. Moorman feels greatly encouraged with his prospects of success as the campaign develops; in fact, his friends say he is "running like a scared wolf." The duties of this office have required his close attention for some weeks past. This has prevented him from making a close canvass as he would have liked during the interim—which is one more reason why he should merit consideration—but he is going to cover the ground thoroughly between this date and the primary. The man who beats Harry Moorman will have to shake the bushes lively.

There's no denying the fact that Bunk Gardner is gaining ground in the race for circuit judge. The reputation he has as a lawyer of ability and his energy, which has always been a factor in his success, are strong points in his favor. — Carlisle County News.

Misses Unice, Kate and Ruth Burris, of Woodland Mills, were guests of Miss Mary Briggs last week and attended the graduating exercises of Hickman College, of which Miss Mary was a member.

A. W. Henry has returned from Bowling Green where he has been attending school. He will now devote his entire time to the insurance business of the firm of Henry & Henry.

And we almost hesitate to tell how good and healthful our Soda and Ice Cream is this season.

If we said much about it we couldn't serve half the crowd that would come. As it is now you see people coming from every direction to our soda fountain and only reason is—Good Soda.
